

Tiny-in-One 3 24" Monitor

Ultimate flexibility,
for ultimate success

Features

- Configurable modular all-in-one
- Fits ThinkCentre Tiny PCs, Thin Clients, and Chromebox
- Borderless display
- 30-degree tilt, 90-degree pivot
- Easy setup
- Full VoIP capability

Modular functionality saves you costs and headaches

Versatile and instantly configurable, this modular all-in-one neatly houses a Tiny PC (sold separately) inside the monitor, meaning you can build the PC fit for your business. Tiny-in-One 3 is compatible with ThinkCentre M Series Tiny PC generations 2-4, Chromebox, and Thin Clients; simply tuck the model of your choice into the back of the display, and within seconds you'll have a modular solution - not to mention deployment cost savings.

Impressive design yields clear graphics and clear work space

With its sleek borderless 24-inch display, TIO 3 is sure to impress your customers and colleagues alike. Its Full HD resolution is crystal-clear, with a space-saving footprint that keeps your work area neat and tidy. And its adjustable lift, tilt, pivot, and swivel ensure that it's comfortable from any angle.
